

Logging in to your Selkirk accounts

Step 1

- Log in to computer (if you are prompted to change password here, select NO)
 - **Note: If you are signing in for the first time from home, go directly to <https://passwords.selkirk.ca>**

Step 2

- Open internet browser (Firefox, Chrome) and type in <https://passwords.selkirk.ca>

Step 3

- Enter your username and provided temporary password
- Example (first initial of first name and complete last name)

Name: Jane Smith

Username: jsmith

Password: (provided by HR)

Follow the prompts to create a new password

(Note: wait about 10 minutes for the password to sync with all Selkirk College services)

Step 4

- Login to Outlook email at outlook.selkirk.ca using your username and newly created password.

Step 5

- Follow the next steps to set up your MFA (Multi-factor Authentication).

If you require IT assistance while setting up your accounts, go to go.selkirk.ca to find contact information.

Ways to contact IT Services can be found at go.selkirk.ca
