

Course Topic Displays (Moodle)

Your instructor may choose one of two displays for course content - collapsed or expanded.

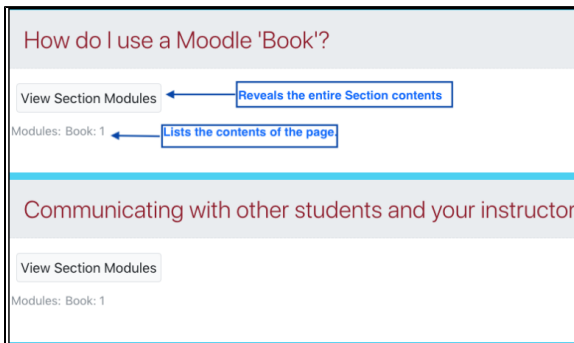

Expanded View

1. Show all sections on the same page (everything is visible):

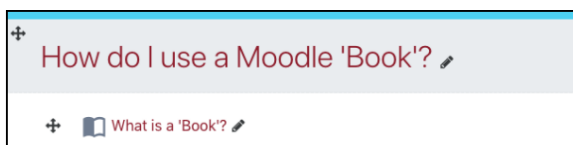

2. It may show only one section per page.

Collapsed View

In the above example, each week has the individual activities/resources listed in gray text (*i.e. Modules: Book: 1*).

1. To access the content, click on View Section Modules button

2. Use the forward/back arrow links to move forward or back one week/topic at a time.
3. Use **'Return to main course page'** link to go back to the main course page.

Jump To

This function is at the bottom on all opened activities or resources. Use it to move forward, back, or jump to another section of the course.

The image shows a navigation bar with a light gray background. It contains three main elements: a button on the left, a button on the right, and a dropdown menu in the center. The left button is labeled "Goes to the previous Section" and has a blue arrow pointing down to a red left-pointing triangle followed by the text "Sample Quiz - Try Me!". The right button is labeled "Option to jump to other Sections" and has a blue arrow pointing down to a red-bordered dropdown menu. The dropdown menu contains the text "Jump to..." followed by a blue right-pointing triangle and a small downward-pointing triangle.

Goes to the previous Section
