

# Navigating the Moodle Site(s)

There are several ways to move around in your course(s). There is no single 'right way'; it is a matter of personal preference. There are three navigation bars available:

- [White Static Navigation Bar](#)
- [Breadcrumbs](#)
- [Left Side Bar Navigation:](#)

## White Static Navigation Bar

Displayed at the top of your screen, from left to right: Navigation Drawer Icon, Selkirk Logo, Name of Course, Gear Icon to access Course Dashboard.

The "**White Static Navigation Bar**", located at the far right of your screen, contains icons for the notification menu, notifications for messages, your name, and a dropdown menu with access to the Dashboard, Profile, Grades, Messages and Preferences.

## Breadcrumbs

The Breadcrumb bar is located in the header, directly beneath the course title, shows the 'path' you have taken.

**Example:** "Assignment #1" is where you currently are. To move back to the main 'Learn' page, click on "Learn". This is faster than repeatedly clicking on the browser 'back' arrow.

## Left Side Bar Navigation:

Navigation is controlled by the Drawer icon (☰) in the top left corner of your screen.

Clicking on it will either hide or display links to:

- Information on the site you are currently in (*i.e. participants, grades (if the instructor has activated this tool)*).
- Home, Dashboard, My courses, Private files.
- Home - the page you see when you first login.
- Dashboard - a list of all courses you are enrolled in. [This view can be filtered and customized by you.](#)
- Calendar - shows all current Moodle activity dates for one or all courses you are enrolled in.
- Private Files - serves a similar purpose as a Jump Drive
- My courses - links for all the courses you are currently enrolled in.
