

Updating Zoom Client

Zoom Desktop Client (PC, Mac, or Linux) will release updates when new versions are released. Updating is important to ensure you are working with the latest version with bug fixes and functionality enhancements.

Selkirk Staff

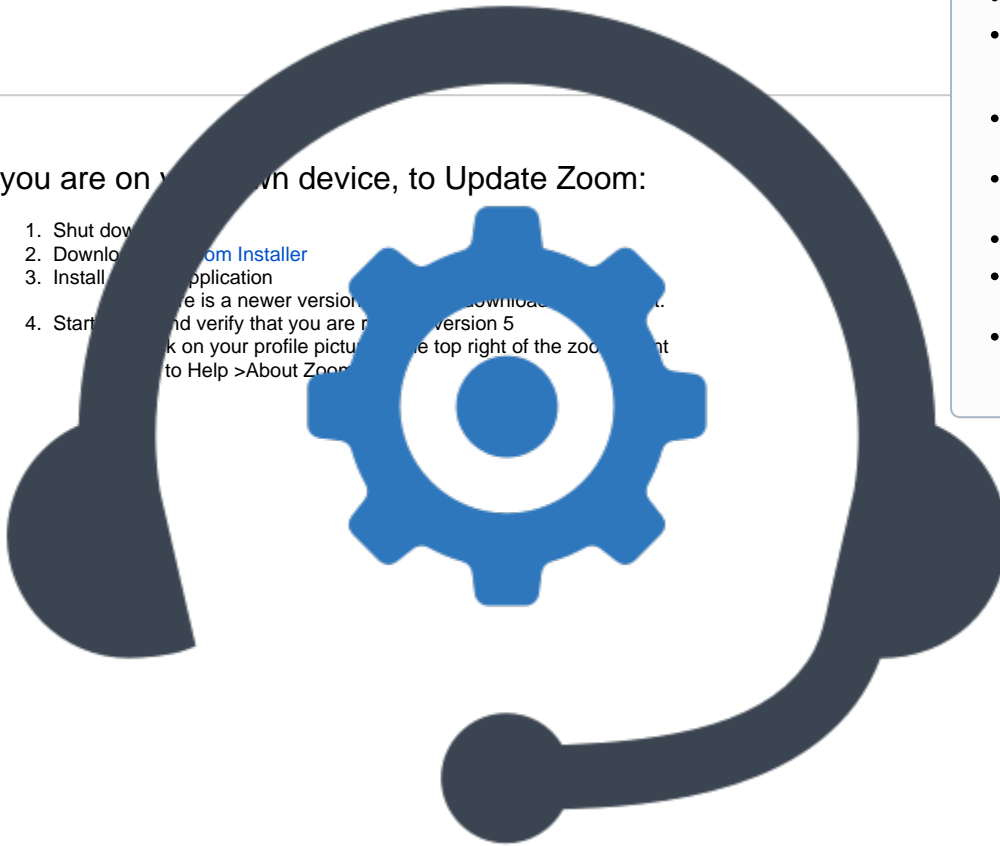

If you are working on a College provided computer, please join us in our virtual help desk and one of our IT Helpdesk staff will be able to assist you.

If you are on your own device, to Update Zoom:

1. Shut down the Zoom application
2. Download the [Zoom Installer](#)
3. Install the application
4. Start the application and verify that you are running version 5.0 or later. If there is a newer version available, you will be prompted to download it. To check for updates, click on your profile picture in the top right of the Zoom client and select Help > About Zoom.
