

Citrix Software/Application Access

Software for specific programs can be accessed by a variety of means including:

1. **On campus computer labs** - General purpose software access is available on campus in general purpose computer labs.

Note: Physically distanced computer labs are available at the following locations (limited seating available): Castlegar campus BON-21, Silverking campus SK-118 & SK-119, Nelson 10th street campus P-200
2. **SEG computer lab** - Specialized software access for the SEG program is available on campus in designated spaces for SEG programs. **Note, some RRS specific applications are also available in the computer labs on the Castlegar campus.*
3. **Citrix Virtual Application** - Remote access to **MS Visio and Project** is provided by connection to virtual application in Citrix.
4. **SEG Citrix Virtual Desktop** - Remote access to a full virtual desktop with specialized SEG software in Citrix.
5. **General Purpose Virtual Desktop** - access to full virtual desktop with general lab software - available to all staff and registered students.
6. **Hospitality Citrix Virtual Desktop** (see chart below) - Remote access to a full virtual desktop with specialized Hospitality software in Citrix.
7. **Pharmacy Tech Citrix Virtual Desktop** (see chart below) - Remote access to a full virtual desktop with specialized Pharmacy Technician software in Citrix.
8. Self-download (see chart below) - Some software may be available to download for free or after registration with a student account. Please consult your program instructor for availability.

Note: Only on campus systems and Citrix Virtual Desktop allow access to files located on campus network drives. Users may elect to store permissible files on their personal Microsoft OneDrive cloud storage instead for easy access within the Citrix environment.
